UEG Week Newsletter

September 2017

Reduced rates for the 25th UEG Week apply until September 14!

Our anniversary meeting takes place from October 28 - November 1, 2017 in Barcelona, and combines world class scientific research as well as lectures by leading minds in gastroenterology. This year we celebrate 25 years of UEG Week with a special [anniversary session covering advances in GI in the past 25 years](#) on Wednesday followed by celebrations.

Make sure to catch the deadline, September 14, and register at reduced rates!

Application for Rising Stars 2018 closes on September 7, 2017

Become our next Rising Star and use the chance to reach the next level in your scientific career. Each year UEG honours emerging clinical scientists as Rising Stars with the aim to provide a durable platform for these young researchers to further evolve their professional career. Tell us more about your main contribution to gastroenterology and submit your application now!

Exchange knowledge on data and products with experts & peers

Industry Sponsored Symposia at 25th UEG Week 2017 give you the chance to discuss and exchange knowledge with clinicians, researchers as well as the pharmaceutical and medical device industry. These sessions take place outside the core scientific programme early morning and in the evenings.

[Browse the symposia overview and mark these unique events in your calendar!](#)

Find out how your research ideas can be funded!

Learn from your peers who have successfully applied for EU funding and ask your personal questions to high-level researchers during a dedicated 25th UEG Week session: **EU Funding: What UEG can offer**. Chaired by UEG President Michael Manns and UEG Research Board Chair Arthur Kaser, the session will cover funding opportunities for digestive health research in Horizon 2020 as well as case studies and role models in digestive health research.
